### Request for Automatic Traffic Counter Surveys (ATC) – Peterston-Super-Ely and Gwern-y-Steeple

Firstly, please accept my apologies for the delay in responding to your enquiry regarding vehicle speeds within Peterston-super-Ely and Gwern-y-Steeple, and the possibility of undertaking further Automatic Traffic Counter (ATC) surveys within the villages.

Thank you for your email and for outlining the previous locations where ATC surveys were undertaken. I appreciate the concerns raised by both the Community Council and local residents regarding vehicle speeds and understand the desire to obtain updated speed and traffic flow data for the area.

The Council receives a significant number of requests for traffic surveys and speed assessments across the Vale of Glamorgan. Consequently, the available resources and funding for such surveys are prioritised towards locations where there is evidence of an existing road safety problem, particularly where collision data indicates a heightened risk to highway users.

I have reviewed the most recent collision records available from Welsh Government and South Wales Police. These records indicate that there have been no recorded personal injury collisions within Peterston-super-Ely or Gwern-y-Steeple during the latest three-year period up to 28 March 2026. This suggests that, from a road safety perspective, the villages currently have a good safety record.

In light of the absence of any recorded injury collisions and the current financial pressures on the Council, we are unfortunately unable to justify the deployment of ATC

Continued overleaf.

Correspondence is welcomed in Welsh or English/Croesewir Gohebiaeth yn y Gymraeg neu yn Saesneg
